about BOLD tumbler

Sip. Think. Create!

The Bold Tumbler is designed for those who live creatively and thoughtfully. Every curve, every touch, and every detail is crafted with care. More than a tumbler, it's a partner for your creative journey.

CeraRing™

Pure Taste, Perfectly Preserved

CeraRing™ is Calzone's proprietary technology that combines the durability of stainless steel with the smoothness of ceramic. It preserves the original taste of your beverage without any metallic odor and ensures hygienic use. With a seamless ceramic coating that extends from the interior to the lip-touching area, it completes what makes the BOLD tumbler truly special.

2 lids

Designed for Every Way You Sip

The BOLD tumbler offers two lid options – an airtight lid for carrying and a straw lid for relaxed sipping. The straw lid, made from soft silicone, can also be used as a coaster, making your everyday use more creative.

4 colors

Special & Limited Calzone Color Way

The BOLD Tumbler comes in four colors: the pure Porcelain White and deep Gopdol Black, both from Korea, the playful charm of Sunny-Side-Up Yellow, and the cool freshness of Arctic Chill Blue. Choose your favorite shade and enjoy the BOLD Tumbler in your own style.
